About Continuum Software Solutions

- ▶ Continuum Software Solutions seek out Magento open source platform purely from user perspective.
- ▶ We believe in relationship that engages and connects technology for greater good. We try to extensively write our views based on customer behavior & need analysis.
- ▶ Online shoppers seek for user friendly and interactive Ecommerce platform.

Engaging experience leads to high interactivity

- ▶ It is a small pocket mobile friend usage trend that is seen in past few years.
- ▶ Companies attract prospective buyers through it. They dwell upon user navigation-based analysis and gives them recommendations with different engagement techniques like offers, discounts or by generating interests to know more about offering.
- ▶ Which ultimately results in revenue generation.

Adaptable by social media platforms

- ▶ Out of all the digital media campaigns, social media is the most interactive and scalable.
- ▶ Here not only product gets highlighted but there are various means to show advantages & features through video, images & gauging spontaneous reaction of customers on platforms like Facebook, Instagram, twitter.
- ▶ Major leads are attracted from these mediums.
