A Global Airport Concierge Service

We worked with Global Airport Concierge Services to create their next app. The company caters to the unique and ever-changing demands of every airline business or leisure traveler.

We created a companion app for the users. Their motto is to make every of their journey a success. The service is known to deliver the best transit service before departure, destinations, and everything in between.

Case Study

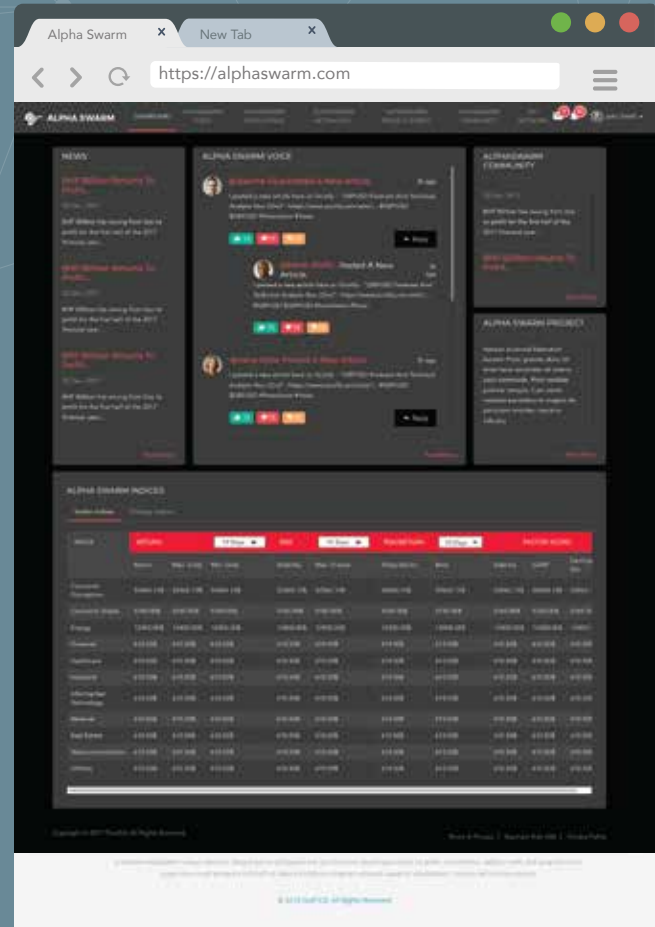

A social platform for financial and investors

We created an app platform for users to share ideas, knowledge contents and data about economy, investing, finance and other related interests. Registered users can view and connect with other users sharing the same interest.

Unexperienced can find and connect with best finance professionals across the globe. The website is developed in AngularJS. We provided a front-end website for this concept. Various other features are planned and will be added over the time.

Online registry for Implantable Cardioverter-Defibrillator

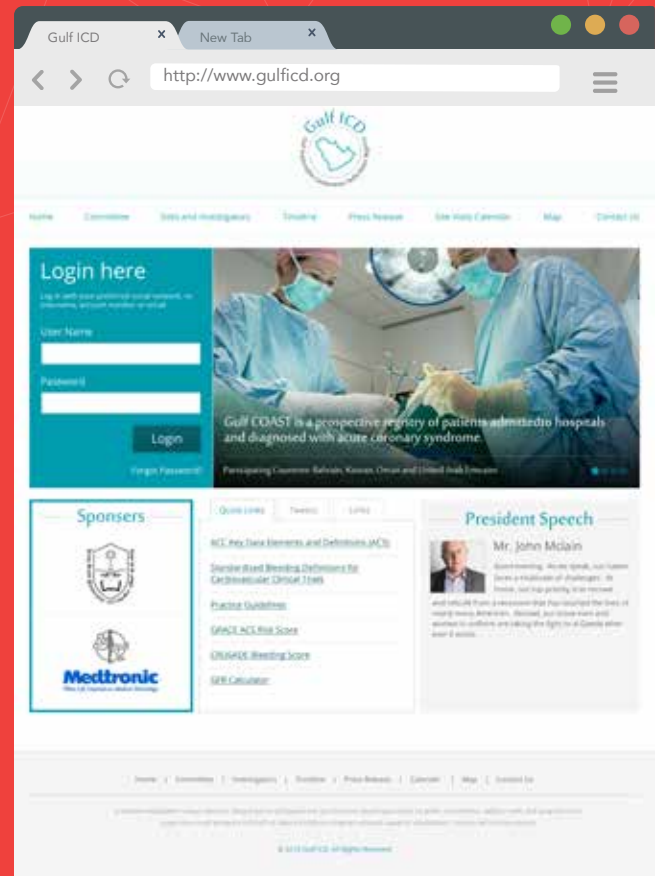

Solution

This is a prospective, observational multi-center and multi-national study of the characteristics and outcomes of patients. It receives implantable cardioverter-defibrillators (ICD) in the Arab Gulf region. A total of 1,500 patients will be enrolled.

Result

Fifteen centers in six countries are enrolling patients (Saudi Arabia, United Arab Emirates, Kuwait, Oman, Bahrain, and Qatar). Enrollment started in December 2013, and accrual rate increased as more centers entered the study reaching an average of 98 patients per month.

A Smart App for Generating Virtual Address IDs and SOS

bhavyadeep, 3:14 PM

One-Way is an app which converts your address into a virtual ID. Simply provide your One-Way ID instead of giving your whole address. Services like E-commerce, Health-care, Food delivery and, Cab transportation can access it, only if you share your virtual ID with them. It has integrated geolocation support which will make your traveling experience smoother.

It also has SOS feature which will be a savior in catastrophic circumstances. All you need to do is press the SOS option. It will have four options: Accident Me, Road Accident, Robbery Violence, Danger Terror. Choose the relevant option and it will send a notification to Police, Hospital or any other related authorities

Enterprise Solution for National Anti-Corruption Commission in KSA

Solution

The team decided to build the application keeping the regulation and norms of ACC intact. From the design till the interface, everything was planned to make it work as a coherent spot for complaints against corruption.

The people to be included were both normal and the high-end contractors and builders. The final result came in form of an easy to use, interactive, reliable, and highly secured application, which people can trust.

Where the intermodal community comes to connect

Solution

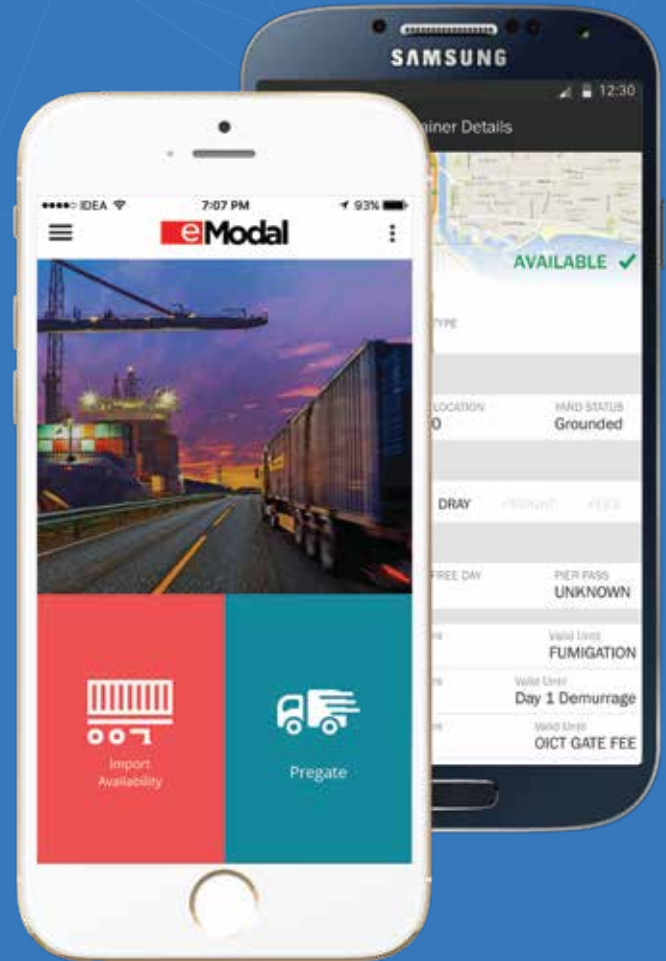

eModal is the world's largest port community system and is used extensively throughout North America. As a cloud based solution, eModal offers intermodal supply chain stakeholders complete visibility via a central portal. eModal enables users to manage truck registries, appointments, dispatching, chassis rental billing and fee payments.

Result

eModal.com is an industry standard in the United States, and is used by 40 terminals, 80 shipping lines, and 39,000 users nationwide. Over 10,000,000 container transactions per month are handled by eModal.com.

Complete Mobility solution for the grocery shopping

Solution

To keep the interface easy, and to make it look good, developers and designers sat together and discussed all potential pros and cons, consequently coming to the most viable user interface. Further, to add ease in the same segment, the team added multiple stores in the cart.

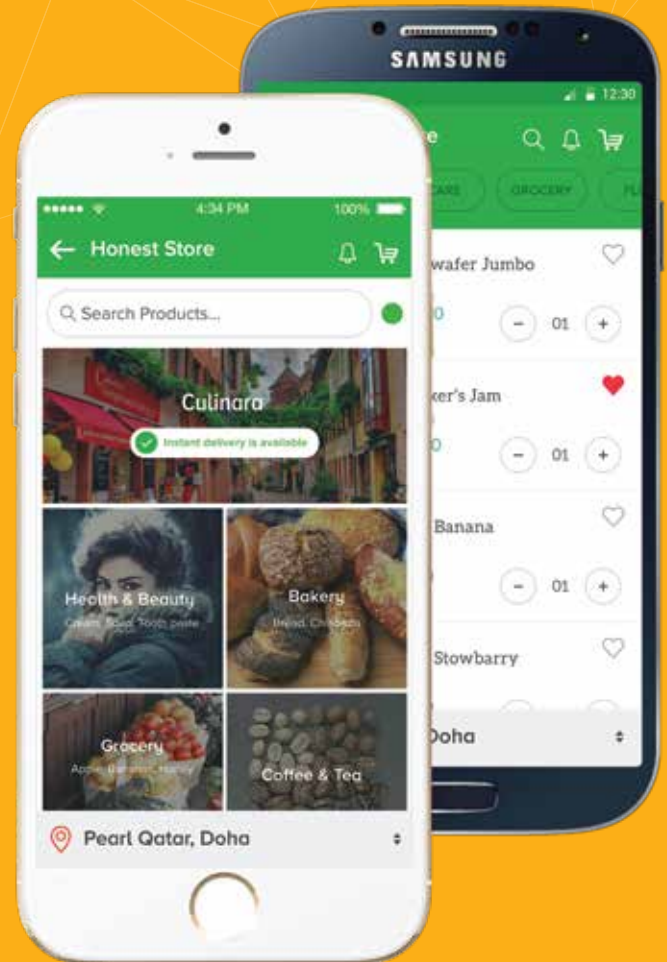

Apart from these, the developers included manage cart details option in app database, while Driver's live tracking and future payment options turned to be the cherry on cake.

Technology stack

We understand the core technological layers to lead and innovate mobility and enterprise solutions.

Our USPs

‘Our fervour for every project that comes across’ is how the USP can be defined in single phrase. But we believe in teaming up, and that’s how the vigour bonds with these:

1

EXPERTISE

We have requisite experience and knowledge of working with the top brands and leaders across the globe. We are capable of handling all types of projects irrespective of its complexity!

2

HIGHLY PROCESS ORIENTED

We follow distinct processes for every task while maintaining a holistic view of the projects.

3

CUSTOMER SATISFACTION

Clients' satisfaction is our priority which contributes towards constant enhancement for maintaining and improving client satisfaction!

4

PEACE OF MIND

We dedicate ourselves to work for your business to assure smooth completion of projects, avoiding all unexpected hazards.

5

COMMITTED SUPPORT

We are passionate about our industry, and we love what we do. We provide regular updates, calls, and product demos for client’s assurance.

6

NO SURPRISES

We ensure transparency in work keeping the unexpected surprises at bay.

Some of Our Precious Clients

We have worked with the well-known clients across the globe.
